Experience

PROJECT NAME ["78 Pueblos"](#) (Ruby on Rails) Jul 2012

PROJECT GOAL To create a user friendly web app for posting classified ads.

LANGUAGES USED HTML5, CSS3 JavaScript, Ruby, SQL.

RESULT The app is still in development. This project was experimental and a for learning purposes. Now is being redeveloped with some adjustments.

PROJECT NAME [YummyPuertoRico.com](#) Jan 2012

PROJECT GOAL To create a directory for restaurants and showcasing their menus. z

LANGUAGES USED HTML5, CSS3, and JavaScript.

RESULT This website was done before I learned about server side languages and databases, so maintenance is harder . If this project was redone, I would create a backend with Rails, and would integrate with database.
